EVENT PROFILE

CEMS-Global USA's International 'Dye+Chem Series of Exhibitions' has reached its accession in popularity in South & South-East Asia, Latin America, and North Africa as the only leading series of its kind. After the pandemic, CEMS-Global is pleased to once again present the physical Bangladesh edition – "42nd Dye+Chem Bangladesh 2023 International Expo". Being the only exhibition of its kind in Bangladesh and having organized many successful editions over the years focusing on the colossal industry of Bangladesh, 42nd Dye+Chem Bangladesh 2023 will once again be the most prestigious and exclusive International Exhibition devoted to focus on all kinds of Dyestuff and Fine & Specialty Chemicals for the Bangladesh Industry and will be a one-stop single platform to showcase from home and abroad the latest developments and emerging technology for the Process Industry.

The 42nd Dye+Chem Bangladesh 2023 will be the biggest meeting place ever held in Bangladesh for Buyers and Suppliers of Dyestuffs & Chemicals and will also provide an interactive platform for Exhibitors to generate business through displays / direct interaction and will enhance the synergy effect and attract top-level professionals from the Industry thus improving technology, focus, and visitors of the expo..

WHY BANGLADESH? WHY NOW?

Bangladesh has significant growth potential, especially in its manufacturing sector and has an impressive track record of growth and poverty reduction. It has been among the fastest growing economies in the world over the past decade, supported by a demographic dividend, strong ready-made garment (RMG) exports of over US\$35 Billion, and stable macroeconomic conditions. A large, young working-age population concentrated in a riverine nation networked by excellent communications – both physically and digitally – clocking an average growth of over seven per cent consistently for more than a decade.

GDP From Manufacturing in Bangladesh averaged 14873.65 BDT Million from 2006 until 2020, reaching an all time high of 27106.70 BDT Million in 2020. Low-cost and high-quality products are produced on time; reliably and very competitively with a skilled work force; unique regional location for expansion into key Asian and other markets; privileged trading status with Canada, the EU and Japan; clusters of companies providing a local supplier base with depth in skilled labor, training, and technical development facilities provide a favorable advantage for the boom in manufacturing in Bangladesh. The manufacturing sector of Bangladesh currently contributes 17 per cent of the value added to the country's GDP as well as 90 per cent of exports.
